

Personal Mission Statement

of

Robert L. Frazer, Jr., D.D.S.

“Bob Frazer”

A caring, loving husband, father, and Grandfather who cherishes and affirms my wife and children, who provides for them a safe, nurturing yet stimulating home and family experience that builds their positive self-regard and releases their talents and capacities for life. One who strives to live a life of principles such as courage, charity, honesty, patience, humility, fidelity, optimism, industry, moderation and integrity. To seek a balance of love, play, work and worship.

In my work, to be a gifted teacher in the sense of The Prophet – who leads people to the threshold of their own mind, who gives first of my lovingness and only then of the wisdom I have learned. One who helps people discover their highest calling and then walks beside them to help them create a plan to achieve that dream.

To assemble the best team of people working in dentistry and consulting today, to facilitate, resource and support the growth, fulfillment and enhanced quality of life of all those with whom I work. To continually strive to provide a complete quality of excellence and integrity. And to have fun while honoring and loving God. Finally, to dedicate all my good works to God in grateful thanksgiving.
